

Datalogic GBT4130 BK BTK1

Description

The Datalogic Gryphon I GBT4100 readers eliminate the need for cables that limit operator movement and create safety concerns in the workplace. The reader can also transmit data to the host through its base station as well as to any commercial or embedded Bluetooth v2.0 compliant device. Datalogic's unique 2-position cradle provides multiple features for the user. When in the up' position, the Gryphon I GBT4100 imager can be used as a hands-free or presentation style reader. With the Scan-While-Charging feature, there is never any concern about depleted or dead batteries, ensuring constant up-time for increased productivity.
